Agreed and I am sorry. There is more and more that we get burdened with. And it seems as though our bloated management ought to be addressing these added burdens.

It is not and my opinion is what I am being asked to do is not appropriate or part of my job. My inbox is wide open, take whatever you want. Our EPA FOIA people have a different interpretation.

Mark

Sorry about this John. My every waking moment at work is to complete two FOIAs for R4 and on Nafion BP2 by Thursday. Everything else is at a standstill.

Hey Mark,

Just a placeholder/reminder about the figure if you can fit it in your schedule! I am starting responses to technical reviews now which should be complete this week or early next week. The older figure is not fatal on the next set of reviews of course.

Thanks,
John

Sorry I have been negligent on this. Will do asap. However I suspect the clearance will NOT be asap.

Hey Mark,

Our NJ soil manuscript is in technical review right now, hopefully not far from clearance reviews.

Ex. 5 Deliberative Process (DP)

I am copying the image below. I know you are busy but this would help a lot--

Thanks!
John
